HOSPITAL ASSESSMENT

For people with learning disabilities.

This assessment gives hospital staff important information about you. Please take it with you if you have to go into hospital. Ask the hospital staff to hang it on the end of your bed.

Please note: Value judgements about quality of life must be made in consultation with you, your family, carers and other professionals. This includes Resuscitation Status.

Make sure that all the nurses who look after you read this assessment.

Think about – what upsets you, what makes you happy, things you like to do i.e. watching TV, reading, music. How you want people to talk to you (don’t shout). Food likes, dislikes, physical touch/restraint, special needs, routines, things that keep you safe.
